AS-525 CLIENT/SERVER SOFTWARE HIGHLIGHTS

- AS-525 AxTrax is based on SQL Express 2005 database
- Each ACU subnet, consisting of up to 32 ACUs, may be connected to a PC running the AS-525 server PC software
- Enables management of user data, photo with custom fields, access rights, alarms, strike times, and door modes, from a central location
- Used for continuous event monitoring, or periodically for batch downloading of event data, administration and maintenance
- Other PC's on the network may connect to the server by installing the AS-525 PC software *client* application
- Produces reports from acquired data, such as entry and exit times, and by alarm type with filters for user(s), location, and time
- The AS-525 AxTrax software is available in a large selection of languages
- Highly user friendly and straight-forward interface provides an easy and fast setup

AxTraxNG™ CLIENT/SERVER SOFTWARE

- Based on SQL Express 2005 database
- Each ACU subnet, consisting of up to 32 ACUs, can be connected to a PC running the AxTraxNG™ server PC software
- Enables management of user data, photo with custom fields, access rights, alarms, strike times, and door modes, from a central location
- Produces reports from acquired data, such as entry and exit times, and by alarm type with filters for user(s), location, and time
- Available in a large selection of languages

ViTrax™ Visual Access Controller Management Software

AS-525AV ViTrax™ Multimedia Digital Video Surveillance & DVR PC Management Software is an advanced digital video recording and remote surveillance Client/Server software for Microsoft® Windows. It supports Rosslare's AC-525 panels as well as major IP cameras. The software supports live view, video recording, and playback of multiple local and remote sites in multi-client / multi-server installations, enabling exporting of digital recordings in order to preserve evidence. Compatible with all Major IP cameras, video servers, frame grabbers, and other devices including USB Webcams.
